Providing help for Affordable Care Act Open Enrollment

HopeHealth’s patient benefits counselors are the first stop for updating your insurance information or finding out what programs may be available to help with your health care financial needs.

Some of the services provided include determining eligibility for financial programs such as our sliding fee scale. This program is open to all patients, insured or uninsured, and provides a discount for eligible patients based on their income and family size.

Additionally, the counselors can help you enroll in the Health Insurance Marketplace now through Dec. 15.

Call 843-667-9414 to make an appointment with a patient benefits counselor today. Proof of income, such as your 2017 tax return, should be brought to your appointment.

HopeHealth Fountain Named for Longs Drugs

HopeHealth recently held a dedication ceremony in the Medical Plaza Meditation Garden in Florence and unveiled the plaque naming the garden’s fountain for Longs Drugs. The fountain is the second named

gift at HopeHealth and is the result of the ongoing support of Longs Drugs. This support allows HopeHealth to expand services and provide essential care for more patients in our communities.

The Great American Smoke Out

What would you do with an extra \$175 each month? Take a weekend trip with your significant other? Stash it away for a new car? Fill those prescriptions you thought you couldn’t afford? How about investing in your health with a gym membership or a higher quality diet?

All are great ways to spend an extra

\$175, but where can you find that kind of money? If you smoke a pack a day and want to quit, that \$175 is already in your pocket; it is the average cost per month for a daily pack of brand-named cigarettes.

Other forms of smoking, such as smokless tobacco and vaping, are just as costly. All can have a negative impact on your health.

Use The Great American Smokeout on Nov. 15 as inspiration to quit using nicotine products and kickstart an investment in your health.

Talk with your provider today about how HopeHealth can help!
