Conference Room**
520 Thurgood Marshall Blvd.
Suite B, Kingstree

Introducing

VETERANS WITH HOPE ★

HopeHealth hosted the first Veterans with Hope program Aug. 28 with Dr. Farrah Hughes, director of HopeHealth Behavioral Health Services, discussing the importance of behavioral health.

The event featured **Drums on the Front**, from the Florence Center for Contemporary Music, who use group drumming as music therapy treatment for physical and mental combat-related injuries.

The Veterans with Hope program is open to all Veterans and active service members and meets from 5 - 6 p.m. on the third Wednesday of every month in the HopeHealth Medical Plaza Magnolia Room in Florence.

For more information on Veterans with Hope, email Ashleigh Bryson at abryson@hope-health.org or call 843-432-2971.

Advocating for Health Care Centers

Elected officials from Florence, Clarendon, and Williamsburg Counties attended the fourth annual legislative reception for an opportunity to see first hand how important HopeHealth's integrated care model is to their constituents and to show their continued support of community health centers.

To read more about the event and HopeHealth integrated care, visit hope-health.org/news.

Ways you can help support CHCs include:

- Become a patient
- Donate to HopeHealth
- Sign up to become an advocate

Advocates occasionally receive an email to contact legislators and show support for bills under review. Current legislation includes the extension of long term health center funding before the Sept. 30 expiration.
