

Seniors with Hope

Living A Healthy Senior Lifestyle

Seniors with Hope, a free, public event for seniors, is held every first Thursday of the month from 2-3:30 p.m. at Bethea Retirement Community, and every second Thursday of the month at HopeHealth Medical Plaza. Each session offers a variety of speakers, socialization, and refreshments. Brittany Hicks, population health manager at HopeHealth, spoke about the importance of having an annual well visit with your provider, and the seniors completed a DIY project using sand art boards and different sand colors during July's program.

HOPEHEALTH IN MANNING

Ground has been broken on a new facility in Manning that will facilitate HopeHealth specialty services such as dental, women's health services, rheumatology and CARE House. The new building is expected to be completed in the summer of 2023.

National Health Center Week 2022 will be celebrated this year from August 7-13. National Health Center Week is an annual celebration aiming to raise awareness about the mission and accomplishments of America's health centers over the past five decades. HopeHealth will join communities across the country in elevating the work community health centers have done to keep our communities healthy and safe.

Health centers provide primary care services to nearly 29 million people. HopeHealth has served countless patients in 2022 across Aiken (infectious diseases), Clarendon, Florence, Williamsburg, and Orangeburg Counties. Health centers like HopeHealth provide care to people who suffer from chronic disease and may lack access to affordable, quality care. Collectively, CHCs are the backbone of the nation's primary care system. Community health centers lower health care costs to the tune of 24 billion dollars a year, reduce rates of chronic disease, and stimulate local economies.

As we celebrate the success of community health, let's shine a light across our communities that are the future of primary health care access for underserved populations. Show your support during National Health Center Week by supporting HopeHealth and other community health centers. We will be there when you need us. Become an advocate today by signing up at hcadvocacy.org.

HopeHealth is a 501(c)(3) nonprofit organization. Donations to HopeHealth are tax-deductible according to current IRS laws.

Yes, I would like to make a donation to the HopeHealth compassionate care fund.

HOPEHEALTH IN LAKE CITY

A new location will be opening soon to serve HopeHealth patients in Lake City! The new building will provide more space to better serve our patients, updated technology, more parking, and the addition of dental!

HopeHealth in Lake City serves the health care needs of the greater Lake City area, with comprehensive primary care services for patients of all ages.

Lake City School-Based Clinic

School is starting back, and HopeHealth is here to serve students with minimal school disruption! HopeHealth will be on campus in the Health Connections building on the Lake City High School campus every Tuesday and Thursday from 8:30 am to 3:00 pm.

Any student in District 3 may be seen at the school-based clinic. Included with a well-child visit, your child can get a sports physical for the school year, the required Tdap vaccination, and other CDC recommended immunizations! Staff can also see sick students, faculty and staff during these hours. Additionally, parents who are new to the area may be seen for an initial appointment, before being referred to another HopeHealth location for their follow-up.

Pick up a HopeHealth consent form and either return it to the school or bring it to the appointment to take advantage of these services. Walk-ins are welcome. To schedule an appointment, give us a call at (843) 432-3677! For information about HopeHealth school-based clinics in other locations, call (843) 667-9414.
